Easy AI Marketing for Plumbers

*25 Practical ChatGPT Prompts to Improve
Your Website, Local SEO, Reviews, and Marketing
Without Becoming a Marketing Expert*

By Cliff Hawkins
Podmore Media

Introduction

You bought this guide because you don't have time for marketing.

You're too busy running jobs, managing customers, ordering parts, and putting out fires. The last thing you need is a 200-page textbook about digital marketing.

This guide gives you 25 practical ChatGPT prompts to help you create better website copy, local SEO content, social media posts, review messages and customer follow-ups, without needing to become a marketing expert. In practical terms, it will help you:

- Help more potential customers find you when they search for plumbers in your area
- Build trust so they choose you over the competition
- Make it easy for them to contact you when they need help

Each prompt takes about 10-15 minutes to run, review, edit, and prepare for use. Some may take longer if you are creating a full web page or blog outline. Each output saves you 30+ minutes of staring at a blank screen.

You can work through this guide yourself and build your marketing step by step. The prompts in this book are complete — you have everything you need to get started.

And if you like the idea but do not have time to do it yourself, there is a faster done-for-you option at the end of this guide.

For now, pick one section that matches your biggest problem and try three prompts this week.

Small actions repeated consistently beat perfect plans that never get started.

Let's begin.

Who This Is For

This guide is designed specifically for:

- **Self-employed plumbers** running their own business
- **Small plumbing companies** with 1-5 employees
- **Tradespeople** who serve homeowners, landlords, and property managers in their local area
- **Business owners who don't have time** to learn complex marketing theory
- **Plumbers who want practical marketing help** without getting tied into complicated or expensive agency contracts

If you're looking for a 200-page marketing textbook filled with jargon, this isn't it. If you want actionable prompts you can use today to improve your online presence, you're in the right place.

What You Need Before Starting

Before you dive into the prompts, make sure you have the following information ready:

- ☐ **Company name** (e.g., ABC Plumbing)
- ☐ **Your main service area** (e.g., Birmingham and surrounding areas)
- ☐ **Specific areas/neighbourhoods you serve** (e.g., Edgbaston, Moseley, Solihull)
- ☐ **Your main services** (e.g., emergency plumbing, boiler repairs, drain unblocking, bathroom installations)
- ☐ **Phone number** for customer contact
- ☐ **Email address** for enquiries
- ☐ **Website URL** (if you have one)
- ☐ **Years in business** (if applicable)
- ☐ **Any qualifications** (Gas Safe registered, etc.)
- ☐ **Your unique selling points** (what makes you different from other plumbers)

Having these details ready will make running the prompts much faster and the outputs more useful.

Important Note About Examples

Note: The examples in this guide use fictional details such as prices, phone numbers, response times, guarantees, and company names. Replace them with your real information before using any content publicly.

Only make claims you can actually deliver. If you can't answer calls immediately, don't promise it. If your average response time is 2 hours, say that instead. Honest, slightly longer timescales beat broken promises every time.

Trust is built by doing what you say you'll do. Don't undermine it with exaggerated claims.

How to Use This Guide

Priority Guidance: Which Prompts to Do First

Not all prompts are equally important. Here's our recommended priority order:

Week 1 — Foundation (Do These First):

Prompt 1: Local SEO Content Plan

Prompt 6: Homepage Headline Options

Prompt 11: Strong Call-to-Action Options

Week 2 — Build Trust:

Prompt 7: Why Choose Us Section

Prompt 4: Local FAQ Section

Prompt 9: About Us Page

Week 3 — Get Found Locally:

Prompt 2: Service Page Outline

Prompt 5: City Page Content

Prompt 3: Google Business Profile Post

Week 4 — Reviews & Reputation:

Prompt 21: Review Request Message

Prompt 22: Review Response Templates

Prompt 25: Reputation-Building Email

Ongoing — Social Media:

Prompts 16-20 for regular content

The Five-Part Prompt Formula

Every prompt in this guide follows this structure:

- **Role** — Who ChatGPT should act as
- **Business Context** — Your company, services, area
- **Audience** — Who you're talking to
- **Task** — What you want created
- **Format** — How you want it delivered

The more specific your prompt, the better the output.

How to Run Each Prompt

1. **Pick your biggest bottleneck** — Where are you stuck? Getting found? Building trust? Getting contacted?
2. **Choose 3 prompts from that section** — Don't try to do everything at once.
3. **Copy the prompt into ChatGPT** — Replace the [bracketed placeholders] with your details.
4. **Review and edit the output** — Add your real experience. Check for accuracy.
5. **Use it** — Publish the content, update your website, post on social media.

6. **Repeat next week** — Momentum beats perfection.

Section 1: Get Found — Local SEO Prompts

Use these prompts when your business isn't showing up in local searches.

Prompt 1: Local SEO Content Plan

Priority: HIGH — Do this first

The Prompt:

Act as a local SEO strategist for a plumbing company. Create a simple 90-day content plan to help [Company Name] in [City/Service Area] get found by more potential customers searching for plumbing services.

Our main services are: [List your main services — e.g., emergency plumbing, drain unblocking, boiler repair, leak detection].

Include:

3 service pages we should create or improve

6 blog topics that match what homeowners search for

9 Google Business Profile post ideas (3 per month)

Keep everything specific to our service area and focused on practical homeowner problems.

Example Output:

90-Day Local SEO Content Plan for ABC Plumbing, Birmingham

Service Pages to Create: 1. Emergency Plumber Birmingham — 24/7 Response 2. Boiler Repair & Replacement in Birmingham 3. Drain Unblocking Services — Birmingham & Surrounding Areas

Blog Topics: 1. Why Does My Drain Keep Blocking? Birmingham Homeowner's Guide 2. 5 Signs Your Boiler Needs Repair (Before It Fails) 3. What to Do When a Pipe Bursts: Emergency Steps for Birmingham Homes 4. How Often Should You Service Your Boiler? A Simple Schedule 5. Why Is My Water Pressure So Low? Common Causes & Fixes 6. Preparing Your Plumbing for Winter: Birmingham Homeowner Checklist

Google Business Profile Posts:

Month 1: Emergency response times, customer review highlight, seasonal tip

Month 2: New service announcement, before/after job photo, FAQ answer

Month 3: Team introduction, special offer, helpful homeowner reminder

Prompt 2: Service Page Outline

Priority: HIGH

The Prompt:

Act as a website copywriter for a local plumbing company. Create a detailed outline for a service page about [Specific Service — e.g., emergency plumbing, drain unblocking, boiler repair] for [Company Name] in [City/Service Area].

Include:

Suggested headline (clear, not clever)

Opening paragraph that speaks to the homeowner's problem

3-4 sections explaining what the service includes

Common problems this service solves

Why choose us section (trust factors)

Clear call-to-action

Keep the tone friendly, practical, and focused on helping homeowners understand what to expect.

Example Output:

Service Page Outline: Emergency Plumbing in Birmingham

Headline: Emergency Plumber in Birmingham — Fast Response When You Need Us

Opening: A burst pipe, blocked drain, or broken boiler doesn't wait for business hours. When you have a plumbing emergency in Birmingham, you need someone who can respond quickly and fix the problem properly. We offer 24/7 emergency plumbing services across Birmingham and surrounding areas.

Sections: 1. What Counts as a Plumbing Emergency? 2. Our Emergency Response Process 3. Common Emergency Repairs We Handle 4. Birmingham Areas We Cover

Common Problems: Burst pipes, blocked toilets, boiler failures, leaking radiators, blocked drains, bathroom leaks, emergency call-outs

Why Choose Us: Local Birmingham plumbers, fast response times, upfront pricing, guaranteed workmanship

Call-to-Action: Call 0121 123 4567 now for immediate assistance

Prompt 3: Google Business Profile Post

Priority: MEDIUM — Use regularly

The Prompt:

Act as a local marketing assistant for a plumbing company. Write 3 Google Business Profile posts for [Company Name] in [City/Service Area].

Post 1: Highlight our [Specific Service] and why homeowners choose us Post 2: Share a helpful seasonal tip for homeowners in [Month/Season] Post 3: Feature a customer review and what we did to help them

Keep each post under 300 characters, friendly and professional, and include a simple call-to-action.

Example Output:

Post 1: Fast, reliable drain unblocking in Birmingham. Clear pricing, tidy work, and practical advice before we start. Book online or call us today. <https://abcplumbing.co.uk>

Post 2: Winter tip: Check your outdoor taps before the freeze. Turn off the isolation valve and drain the pipe to prevent bursts. Need help winterising your plumbing? We're here. <https://abcplumbing.co.uk>

Post 3: "Called at 8pm with a leaking pipe. Arrived within the hour and fixed it properly. Highly recommend." — Sarah, Birmingham. Need emergency plumbing? Call 0121 123 4567.

Prompt 4: Local FAQ Section

Priority: HIGH

The Prompt:

Act as a customer service writer for a plumbing company. Create 5 FAQ questions and answers for [Company Name] in [City/Service Area].

Focus on:

Service area questions

Response time questions

Pricing questions

What to expect when we arrive

Emergency vs. non-emergency guidance

Keep answers honest, specific, and under 100 words each. Avoid making claims about being the "best" or "cheapest" unless you can prove it.

Example Output:

Q: What areas of Birmingham do you cover? A: We cover all Birmingham postcodes including Edgbaston, Moseley, Solihull, and Sutton Coldfield. If you're unsure whether we serve your location, give us a call and we'll let you know immediately.

Q: How quickly can you respond to an emergency? A: For plumbing emergencies in Birmingham, we aim to respond within [X] minutes, depending on availability and location. Our emergency line is open 24/7. When you call, we'll give you an estimated arrival time based on your location and current demand.

Q: Do you charge for call-outs? A: We charge £60 for standard call-outs, which includes the first hour of labour. For emergency call-outs, the rate is £95. We'll always confirm pricing before starting any work.

Q: What should I do while waiting for the plumber? A: If safe to do so, turn off your main stopcock to prevent further water damage. Move valuable items away from the leak. Don't attempt repairs yourself if you're unsure — we're on our way.

Q: Is my problem an emergency? A: Burst pipes, blocked drains, no water supply, and major leaks are emergencies. Slow drains, dripping taps, and routine maintenance can usually wait for a scheduled appointment. When in doubt, call us and we'll advise.

Prompt 5: City Page Content

Priority: MEDIUM — Create one at a time

The Prompt:

Act as a local SEO copywriter for a plumbing company. Write a 300-word city page for [Company Name] serving [Specific Area/Neighbourhood within your service area].

Include:

Why we serve this area

Common plumbing issues in this neighbourhood

How homeowners can contact us

One trust factor (local knowledge, response time, etc.)

Keep it natural — don't force the city name into every sentence. Write like you're explaining to a homeowner why you're the right plumber for their area.

⚠ Important Warning About City Pages:

City pages only work if they're genuinely local. Don't just copy a page and change the town name. Google may ignore, devalue, or rank thin copied pages, and homeowners can spot them immediately.

Instead, make each page specific:

- Mention actual local landmarks or features
- Reference specific housing types in that area (Victorian terraces, new builds, etc.)
- Include genuine local knowledge (water pressure issues, common boiler types, drainage problems)
- Write about real problems that affect that specific neighbourhood

If you can't write something genuinely useful about an area, don't create a page for it.

Example Output:

Plumbing Services in Edgbaston, Birmingham

We've been serving Edgbaston homeowners for over 10 years. From the Victorian terraces near the cricket ground to the modern flats on Hagley Road, we understand the plumbing challenges that come with different property types in this area.

Edgbaston homes often face specific issues: aging pipework in older properties, hard water limescale buildup, and drainage problems in areas with mature trees. Our team knows the local water pressure patterns, common boiler models in the neighbourhood, and the fastest routes to reach you.

Whether you need emergency repairs, boiler servicing, or planned bathroom work, we offer straightforward pricing and reliable service. Most Edgbaston call-outs are reached within [X] minutes, depending on availability and location.

To book a plumber in Edgbaston, call 0121 123 4567 or use our online booking form at <https://abcplumbing.co.uk/book>

Section 2: Build Trust — Website & Content Prompts

Use these prompts when visitors aren't becoming enquiries.

Prefer not to do this yourself? Podmore Media can help with the planning, writing and organisation as part of a done-for-you marketing package. Details are near the end of this guide.

Prompt 6: Homepage Headline Options

Priority: HIGH — Do this first

The Prompt:

Act as a website copywriter for a plumbing company. Write 10 homepage headline options for [Company Name] in [City/Service Area].

Our focus is: [Emergency plumbing / Reliable service / Local expertise / Affordable pricing — pick one primary focus]

The headlines should:

Speak directly to homeowners

Address a real problem or desire

Be clear, not clever

Sound trustworthy, not salesy

Give me 10 options ranging from direct to slightly more personality-driven.

Example Output:

1. Emergency Plumber in Birmingham — Fast Response, Fair Pricing
2. Plumbing Help for Birmingham Homes — Clear Advice, Reliable Service, Fair Pricing
3. Your Local Birmingham Plumber — Here When You Need Us
4. Fast, Reliable Plumbing Services Across Birmingham
5. Don't Let a Leak Ruin Your Day. Call Birmingham's Trusted Plumbers.
6. Straightforward Plumbing Help for Birmingham Homes
7. We're the Plumber Your Neighbours Call. Serving Birmingham for 10+ Years.
8. Emergency or Planned — Birmingham Plumbing Done Right
9. Real Plumbers. Real Reviews. Real Results for Birmingham Homes.
10. From Drips to Disasters — Your Birmingham Plumbing Experts

Prompt 7: Why Choose Us Section

Priority: HIGH

The Prompt:

Act as a marketing copywriter for a plumbing company. Write a “Why Choose [Company Name]” section for our website.

Include:

3-4 specific trust factors (not generic claims like “we’re the best”)

Brief explanation of each factor

Supporting detail where possible (years of experience, local knowledge, guarantees, etc.)

Keep it honest and specific. If you don’t have exact numbers, use ranges or general statements.

Never invent credentials, awards, or review counts.

Example Output:

Why Birmingham Homeowners Choose ABC Plumbing

Local Knowledge We’ve worked in Birmingham for over 10 years. We know the common plumbing issues in Victorian terraces, 1930s semis, and new builds. We understand the local water pressure, common boiler models, and the fastest routes to reach you.

Upfront Pricing No hidden charges. We confirm costs before starting work and explain what you’re paying for. Our standard call-out is £60, including the first hour of labour.

Guaranteed Workmanship All our repairs come with a 12-month guarantee. If the same issue recurs due to our work, we’ll fix it at no extra cost.

Clear Communication We’ll explain what’s wrong, what needs fixing, and what it will cost — in plain English, not jargon. You’ll know exactly what to expect before we start.

Prompt 8: Service Explanation (Plain English)

Priority: MEDIUM

The Prompt:

Act as a plumbing copywriter. Explain [Technical Service — e.g., power flushing, CCTV drain survey, thermal imaging leak detection] in plain English that a homeowner can understand.

Include:

What the service is (in simple terms)

When it’s needed

What the homeowner can expect

Rough idea of time required (not price)

Avoid technical jargon. Write like you’re explaining it to a neighbour over a cup of tea.

Example Output:

What Is Power Flushing?

Power flushing is a deep clean for your central heating system. Over time, sludge and rust build up in your radiators and pipes, making your heating less efficient and causing cold spots on radiators.

When you might need it:

Some radiators are cold at the bottom

Your boiler is making unusual noises

Your heating takes longer to warm up than it used to

You've noticed higher energy bills

What to expect: We'll connect a powerful flushing machine to your heating system and pump cleaning chemicals through your pipes and radiators. This breaks down the sludge and flushes it out. The process takes 3-6 hours depending on your system size.

Afterwards, your heating should work more efficiently, your radiators should heat evenly, and your boiler should run more quietly.

Prompt 9: About Us Page

Priority: MEDIUM

The Prompt:

Act as a website copywriter for a plumbing company. Write an About Us page for [Company Name].

Include:

How the business started (or how long you've been serving the area)

What you believe about customer service

What makes your approach different (be specific, not generic)

A brief mention of qualifications/experience (only if true)

Invitation to get in touch

Keep it honest and personal. Don't invent a backstory. If you're a one-person operation, say so. If you have a team, mention that.

Example Output:

About ABC Plumbing

I started ABC Plumbing in 2014 after 8 years working for larger plumbing firms. I saw how complicated and frustrating the process could be for homeowners — unclear pricing, missed appointments, work that needed redoing.

I wanted to do things differently.

What we believe Plumbing problems are stressful enough without adding confusion. We believe in:

Turning up when we say we will

Explaining what's wrong before we fix it

Charging fair, upfront prices

Leaving your home as clean as we found it

Our approach We're a small team serving Birmingham and surrounding areas. That means you speak to the same people every time. We know our regular customers, their properties, and their preferences.

We're not trying to be the biggest plumbing company — we're trying to be the one you trust enough to recommend to family.

Qualifications We're Gas Safe registered, carry £2 million public liability insurance, and all our work is guaranteed for 12 months.

If you need a plumber in Birmingham, we'd like to help. Call 0121 123 4567 or book online at <https://abcplumbing.co.uk/book>

Prompt 10: Trust-Building Blog Post Outline

Priority: LOW — Use when you have time

The Prompt:

Act as a content writer for a plumbing company. Create an outline for a blog post that builds trust with homeowners in [City/Service Area].

Topic: [Common Plumbing Problem — e.g., "What to Do When Your Boiler Breaks Down"]

The post should:

Show expertise without being condescending

Provide genuine help (not just a sales pitch)

Include when DIY is appropriate vs. when to call a professional

End with a soft call-to-action

Give me a working title, 5-7 section headings, and 2-3 bullet points for each section.

Example Output:

Working Title: Boiler Broken? A Birmingham Homeowner's Step-by-Step Guide

Section 1: First, Check the Basics

Check if other appliances work (rule out power cut)

Check your thermostat settings

Check the boiler pressure gauge

When these simple checks are worth trying

Section 2: Common Boiler Problems You Can Sometimes Fix

Resetting the boiler (how and when)

Repressurising the system (step-by-step)

Thawing a frozen condensate pipe

When DIY is safe vs. when it's not

Section 3: Signs You Need a Professional

Error codes you don't recognise

Strange noises or smells

Repeated pressure loss

Water leaks from the boiler

Section 4: What Happens When You Call Us

How we diagnose the problem

Typical repair vs. replacement considerations

How we explain your options

No-pressure advice

Section 5: Preventing Future Breakdowns

Annual servicing importance

Simple maintenance homeowners can do

When to book a service

Call-to-Action: If your boiler's playing up and you're not sure what to do, we're happy to advise. Call 0121 123 4567 or book a call-out online at <https://abcplumbing.co.uk/book>

Section 3: Get Contacted — Conversion Prompts

Use these prompts when people visit your site but don't call or book.

Prefer not to write this yourself? Podmore Media can help turn these prompts into finished website copy and local content. Details are near the end of this guide.

Prompt 11: Strong Call-to-Action Options

Priority: HIGH — Do this first

The Prompt:

Act as a conversion copywriter for a plumbing company. Write 10 call-to-action options for [Company Name].

Mix of:

Phone CTAs (for emergencies)

Online booking CTAs (for convenience)

Soft CTAs (for people not ready yet)

Each should be specific about what happens next. Avoid generic "Contact Us" or "Get in Touch."

Example Output:

1. Call 0121 123 4567 — We'll answer as quickly as possible and give you a clear next step.
2. Book Online — Choose a slot that works for you. No phone call needed at <https://abcplumbing.co.uk/book>
3. Get a Free Callback — Tell us your problem and we'll call you back as quickly as possible.
4. Emergency? Call 0121 123 4567 Now — 24/7 response for burst pipes, leaks, and breakdowns.
5. Request a Quote — Describe your job and we'll send a clear, fixed-price estimate.
6. Check Our Availability — See our next available appointment instantly at <https://abcplumbing.co.uk/book>
7. Ask a Question — Not sure if you need a plumber? Message us for honest advice at info@abcplumbing.co.uk
8. Book Your Annual Service — Secure your preferred date before the winter rush.
9. Call 0121 123 4567 for Immediate Help — Average response time: [X] minutes in Birmingham.
10. Get Our Pricing Guide — See typical costs before you book. No surprises.

Prompt 12: Emergency Service Highlight

Priority: HIGH

The Prompt:

Act as a website copywriter for a plumbing company. Write a section highlighting our emergency plumbing service.

Include:

What counts as an emergency (be specific)

Our response time commitment (be realistic)

What happens when they call

Simple next step

Keep it calm and reassuring — they're probably stressed if they're reading this.

Example Output:

Emergency Plumbing in Birmingham

What's an emergency?

Burst pipes or major leaks

No water supply

Blocked drains causing backups

Boiler breakdown in winter

Gas leak (call National Grid first, then us)

Toilets not flushing in a single-bathroom home

Our response We answer emergency calls 24/7. When you call 0121 123 4567, you'll speak to a plumber (not a call centre). We'll assess the situation, give you immediate advice if it's safe to do so, and confirm our estimated arrival time.

Most emergency call-outs in Birmingham are reached within [X] minutes, depending on availability and location.

What it costs Emergency call-outs are charged at £95, including the first hour of labour. We'll confirm this when you call and before we start any work.

Call 0121 123 4567 now for immediate assistance.

Prompt 13: Online Booking Page Copy

Priority: MEDIUM

The Prompt:

Act as a UX copywriter for a plumbing company. Write the copy for an online booking page.

Include:

Headline that reassures them booking online is easy

3-4 benefits of booking online (vs. calling)

What information they'll need to provide

What happens after they book

Simple reassurance about confirmation

Keep it friendly and remove any friction or uncertainty.

Example Output:

Book Your Appointment Online

Skip the phone queue. Book in 60 seconds.

Choose a date and time that works for you. No waiting on hold, no phone tag, no hassle.

Why book online?

See all available slots instantly

Book any time, day or night

Get immediate email confirmation

Add details about your problem so we're prepared

What you'll need:

Your postcode (to confirm we cover your area)

Preferred date and time

Brief description of the problem

Contact details

What happens next: You'll receive an immediate confirmation email with your appointment details. We'll also send a reminder 24 hours before. If anything changes, you can reschedule online or call us on 0121 123 4567.

[Book Now Button]

Prefer to call? No problem — 0121 123 4567

Prompt 14: Contact Page Optimisation

Priority: MEDIUM

The Prompt:

Act as a website copywriter for a plumbing company. Write an optimised contact page for [Company Name].

Include:

Clear headline

Phone number (prominent, with when to call)

Online booking option

Email option (with realistic response time)

Physical address (if you have a showroom/office)

Service area list

What to expect when they contact you

Make it easy to find the right contact method for their situation.

Example Output:

Contact ABC Plumbing

Need a plumber? Here's how to reach us:

For emergencies: Call 0121 123 4567 — 24/7 emergency line We'll answer immediately and give you an arrival time.

For bookings: Call 0121 123 4567 — Office hours: Monday-Friday, 8am to 6pm Or book online: <https://abcplumbing.co.uk/book> — Available 24/7

For questions: Email: info@abcplumbing.co.uk We respond to all emails within 24 hours (usually sooner).

Our address: ABC Plumbing 123 Main Street Birmingham, B1 1AA

Areas we serve: Birmingham, Edgbaston, Moseley, Solihull, Sutton Coldfield, and surrounding areas

What to expect: When you contact us, we'll ask a few questions about your problem, confirm we can help, and give you a clear idea of timing and costs. No pressure, no surprises.

Prompt 15: Quote Request Form Copy

Priority: MEDIUM

The Prompt:

Act as a conversion copywriter for a plumbing company. Write the copy for a quote request form page.

Include:

Headline that sets expectations

What information they should provide (and why)

How long quotes typically take

Whether quotes are free or charged

What happens after they submit

Be clear and remove uncertainty — people hesitate when they don't know what to expect.

Example Output:

Get a Fixed-Price Quote

Tell us about your job and we'll send a clear, no-obligation quote within 24 hours.

What to include: The more detail you provide, the more accurate your quote will be. Useful information includes:

Type of property (house, flat, age if known)

Description of the problem or work needed

Any access issues we should know about

Preferred timing

Photos (if possible — upload below)

How it works: 1. Submit your request 2. We'll review the details and may call to clarify 3. Receive your fixed-price quote within 24 hours 4. Accept online or by phone to book your appointment

Is there a charge? Quotes are free for standard jobs. For complex projects requiring a site visit, we charge £50 which is deducted from your final bill if you proceed.

No obligation. Your quote is valid for 30 days.

[Request Quote Button]

Section 4: Stay Visible — Social Media Prompts

Use these prompts when you need consistent content but don't know what to post.

Prompt 16: Weekly Content Ideas

Priority: MEDIUM — Use for planning

The Prompt:

Act as a social media manager for a plumbing company. Create 4 weeks of Facebook post ideas for [Company Name] in [City/Service Area].

Mix of:

Helpful tips

Seasonal reminders

Service awareness

Trust builders (reviews, experience, local knowledge)

For each week, give me 2 post ideas with a suggested image/photo type.

Example Output:

Week 1: Drain Health

Post 1: "3 Things You Should Never Pour Down Your Drain" — educational graphic or photo of blocked drain

Post 2: Customer review highlight — screenshot of review or photo of completed job

Week 2: Winter Prep

Post 1: "Is Your Boiler Ready for Winter?" — checklist graphic or photo of boiler service

Post 2: "Areas we serve: Edgbaston" — local landmark photo or map graphic

Week 3: Boilers

Post 1: "5 Signs Your Boiler Needs Attention" — infographic or warning sign photo

Post 2: Behind-the-scenes: team photo or van photo with "Your local Birmingham plumbers"

Week 4: Emergency Awareness

Post 1: "Do You Know Where Your Stopcock Is?" — educational photo showing stopcock location

Post 2: "Fast response times across Birmingham" — map screenshot or local street photo

Prompt 17: Seasonal Reminder Post

Priority: MEDIUM — Use quarterly

The Prompt:

Act as a social media copywriter for a plumbing company. Write 4 seasonal reminder posts for [Company Name].

One for each season, relevant to [City/Service Area].

Each post should:

Mention a seasonal plumbing issue

Give one actionable tip

Include a soft call-to-action

Be under 150 words

Example Output:

Spring: Spring cleaning? Don't forget your drains. After winter, debris can build up in gutters and drains. Clear leaves from gutters and check outdoor drains for blockages. Finding a problem early saves emergency call-outs later. Need help with drainage? We're here: 0121 123 4567

Summer: Going on holiday? Turn off your main stopcock before you leave. If a pipe bursts while you're away, the damage can be extensive. It takes 30 seconds and could save you thousands. Not sure where your stopcock is? We can help you locate it — just ask.

Autumn: Temperatures are dropping. Now's the time to check your boiler is working properly before you really need it. If your heating's been off all summer, turn it on and check for issues. Strange noises? Cold radiators? Get them sorted now, not in the first cold snap. Book a service: <https://abcplumbing.co.uk/book>

Winter: Frozen pipes are a nightmare. If you're going away, leave your heating on low (12-15°C) to prevent freezing. If a pipe does freeze, don't try to thaw it with a blowtorch — call a professional. Emergency line open 24/7: 0121 123 4567

Prompt 18: Customer Question Post

Priority: LOW — Use regularly

The Prompt:

Act as a social media copywriter for a plumbing company. Turn these common customer questions into 3 Facebook posts for [Company Name]:

[List 3 questions your customers ask — e.g., "Why is my water pressure low?", "How long should a boiler last?", "Why does my tap drip?"]

Each post should:

Ask the question in the opening line

Give a brief, helpful answer

Invite further questions

Stay under 150 words

Example Output:

Post 1: "Why is my water pressure so low?"

Low water pressure can be caused by several things: a partially closed stopcock, a blocked pipe, a faulty pressure regulator, or issues with your boiler. Sometimes it's a simple fix; other times it needs investigation.

If you've noticed a sudden drop in pressure, it's worth getting checked. We can diagnose the cause and get your pressure back to normal.

Questions about water pressure? Ask below or call us on 0121 123 4567.

Post 2: "How long should a boiler last?"

A well-maintained boiler typically lasts 10-15 years. But lifespan depends on the brand, how often it's serviced, water quality in your area, and how heavily it's used.

If your boiler is over 10 years old and needing frequent repairs, it may be more cost-effective to replace it. New boilers are also more efficient, which can lower your energy bills.

Not sure whether to repair or replace? We can assess your boiler and give you honest advice. Call 0121 123 4567.

Post 3: "Why does my tap keep dripping?"

Usually it's a worn washer or cartridge inside the tap. Over time, these parts wear out and can't form a proper seal. It's a common issue and usually a quick fix.

A dripping tap isn't just annoying — it wastes water and money. One drip per second can waste over 3,000 litres per year.

Got a dripping tap? We can fix it quickly. Book online: <https://abcplumbing.co.uk/book>

Prompt 19: Before/After Style Post

Priority: LOW — Use when you have photos

The Prompt:

Act as a social media copywriter for a plumbing company. Write 3 "before and after" style captions for [Company Name].

Scenarios: 1. Blocked drain cleared 2. New boiler installation 3. Bathroom renovation

Each caption should:

Describe the problem briefly

Explain what we did

Mention the outcome

Include a soft call-to-action

Assume photos will show the transformation.

Example Output:

Post 1: Blocked Drain Before: Kitchen drain completely blocked, water backing up into the sink. Customer had tried chemical drain cleaners with no success.

After: Drain fully cleared using professional equipment. We also identified the cause (grease buildup) and advised on prevention.

Result: Sink draining perfectly, customer knows how to avoid future blockages.

Struggling with a blocked drain? We clear drains properly, not just temporarily. Call 0121 123 4567.

Post 2: New Boiler Before: Old boiler breaking down regularly, expensive repairs, inefficient heating. Customer facing another winter with an unreliable system.

After: New A-rated combi boiler installed with 10-year warranty. System power-flushed for optimal performance.

Result: Reliable heating, lower energy bills, peace of mind for years to come.

Thinking about a new boiler? We can assess your needs and give you a fixed-price quote. Book a consultation: <https://abcplumbing.co.uk/book>

Post 3: Bathroom Renovation Before: Outdated bathroom with leaking shower, poor layout, tired fixtures. Customer wanted a fresh, modern space.

After: Complete bathroom refit with new suite, thermostatic shower, heated towel rail, and improved layout.

Result: A bathroom that works properly and looks great.

Planning a bathroom update? We handle everything from plumbing to final fittings. Get a quote: 0121 123 4567

Prompt 20: Video Script (60 seconds)

Priority: LOW — Use if you do video

The Prompt:

Act as a video scriptwriter for a plumbing company. Write a 60-second video script for [Company Name].

Topic: [Choose one: "How to find your stopcock", "Signs your boiler needs servicing", "What to do in a plumbing emergency"]

Include:

Hook (first 5 seconds)

Main content (40-45 seconds)

Call-to-action (10 seconds)

Keep language conversational — write how people speak, not how they read.

Example Output:

Topic: How to Find Your Stopcock

[0:00-0:05] Hook: "If a pipe bursts in your home, do you know where your stopcock is? 30 seconds now could save you thousands in damage later."

[0:05-0:50] Main content: "Your stopcock controls the main water supply to your home. It's usually under the kitchen sink, in a cupboard under the stairs, or sometimes in the garage or front garden."

Look for a tap or valve — often brass or plastic. Turn it clockwise to shut off the water. Test it once a year to make sure it moves freely.

If you can't find yours, or it's stuck, we can help. It's a 5-minute job that could save your home from serious water damage."

[0:50-1:00] Call-to-action: "Need help locating your stopcock? Call ABC Plumbing on 0121 123 4567 or book online at <https://abcplumbing.co.uk/book>. We're your local Birmingham plumbers."

Section 5: Build Reputation — Review & Referral Prompts

Use these prompts when you need more reviews and referrals.

Want help putting this into practice? Podmore Media can help build the review, email and follow-up content as part of a done-for-you marketing package. Details are near the end of this guide.

Prompt 21: Review Request Message

Priority: HIGH — Use after every job

The Prompt:

Act as a customer service writer for a plumbing company. Write 3 review request messages for [Company Name].

Different scenarios: 1. Email to customer after job completion 2. Text message version (shorter) 3. Follow-up for customers who didn't respond to first request

Each should:

Be polite and not pushy

Make it easy (include link)

Explain why reviews help (genuine reason)

Say thank you

Example Output:

Version 1: Email Subject: Quick favour? Your feedback helps us grow

Hi [Name],

Thanks for choosing ABC Plumbing for your [service] last week. I hope everything is working properly.

If you have 2 minutes, would you mind leaving us a review? It really helps other Birmingham homeowners find us when they need a plumber.

[Leave a review on Google — <https://g.page/abcplumbing/review>]

No pressure at all — just grateful for your business.

Thanks again, Cliff ABC Plumbing

Version 2: Text Message Hi [Name], thanks for choosing ABC Plumbing for your [service]. If you're happy with our work, would you mind leaving a quick review? It helps other Birmingham homeowners find us. <https://g.page/abcplumbing/review> Thanks!

Version 3: Follow-up (1 week later) Hi [Name], just following up on my earlier message. If you were happy with our work, a short review on Google would mean a lot. It helps other local homeowners find a plumber they can trust. Takes 2 minutes: <https://g.page/abcplumbing/review>. Thanks!

Prompt 22: Review Response Templates

Priority: HIGH — Use for every review

The Prompt:

Act as a customer service writer for a plumbing company. Write response templates for [Company Name] to use when replying to customer reviews.

Create 3 versions: 1. Response to a positive review (5 stars) 2. Response to a neutral review (3-4 stars) 3. Response to a negative review (1-2 stars)

Each should:

Thank the reviewer

Be specific to plumbing services

Sound personal, not robotic

For negative reviews: acknowledge the issue, explain what happened (if known), and invite offline conversation

Example Output:

Positive Review Response: Hi [Name], thank you for the great review! It was a pleasure helping you with [specific service]. I'm glad we could get everything sorted quickly for you. If you need anything in the future, don't hesitate to call. Thanks again for choosing ABC Plumbing!

Neutral Review Response: Hi [Name], thank you for taking the time to leave feedback. I'm glad we could help with [service], but I understand [specific concern they mentioned]. We always aim to do better, so your comments are helpful. If there's anything else we can do, please give me a call directly on 0121 123 4567.

Negative Review Response: Hi [Name], I'm sorry to hear about your experience. This isn't the standard we set for ourselves, and I'd like to understand what happened and make it right. Could you please call me directly on 0121 123 4567 or email info@abcplumbing.co.uk? I'll make sure we sort this out for you. — Cliff, ABC Plumbing

Prompt 23: Referral Request Message

Priority: MEDIUM — Use quarterly

The Prompt:

Act as a marketing writer for a plumbing company. Write a referral request message for [Company Name].

The message should:

Be sent to satisfied customers

Make it easy to refer (no complicated process)

Explain what's in it for the referrer (if you offer an incentive)

Feel natural, not desperate

Example Output:

Hi [Name],

I hope you're still happy with the [service] we did for you last month.

A quick question: do you know anyone else in Birmingham who might need a plumber? A neighbour, friend, or family member?

We're a small business and grow mostly through word-of-mouth. If you refer someone who books a job with us, we'll give you £20 off your next service.

No forms to fill out — just tell them to mention your name when they call.

Thanks for your support, Cliff ABC Plumbing 0121 123 4567

Prompt 24: Testimonial Request (Specific)

Priority: MEDIUM — Use for website testimonials

The Prompt:

Act as a marketing copywriter for a plumbing company. Write an email asking a satisfied customer for a specific type of testimonial for [Company Name].

Instead of a generic "leave a review," ask them to answer 2-3 specific questions that will give you a detailed testimonial you can use on your website.

Example Output:

Subject: Quick favour — would you share your experience?

Hi [Name],

I hope the [service] we did is still working perfectly.

I'm updating our website with real customer experiences, and I'd love to include yours. Would you mind answering 2-3 quick questions? Your responses help other homeowners understand what it's like to work with us.

1. What problem were you dealing with before you called us?
2. What made you choose ABC Plumbing over other plumbers?
3. What was the result? How has it helped you?

Just reply to this email with your answers — a sentence or two for each is perfect. I'll combine them into a testimonial and send it to you for approval before publishing.

Thanks so much, Cliff

Prompt 25: Reputation-Building Email

Priority: MEDIUM — Use 3-6 months after jobs

The Prompt:

Act as an email marketing writer for a plumbing company. Write a “value-first” email for [Company Name] to send to past customers.

The email should:

Provide genuine helpful advice (not a sales pitch)

Remind them you exist in a non-pushy way

Include a soft offer if they need help

Be appropriate to send 3-6 months after their last job

Example Output:

Subject: Winter’s coming — a quick plumbing reminder

Hi [Name],

It’s been a few months since we [service you provided]. I hope everything is still working well.

With winter approaching, here’s a quick reminder that could save you from an emergency call-out:

Check your boiler pressure — It should read between 1 and 1.5 bar when cold. Too low? You might need to repressurise. Not sure how? Give me a call and I’ll talk you through it.

Know where your stopcock is — If a pipe freezes and bursts, turning off the water quickly prevents serious damage. If you can’t find yours, I’m happy to help locate it next time I’m in your area.

Book your annual service — If your boiler hasn’t been serviced in the last 12 months, now’s the time to book before the winter rush.

If you need any help with your heating or plumbing this winter, just reply to this email or call 0121 123 4567.

Stay warm, Cliff ABC Plumbing

Your 7-Day AI Marketing Starter Plan

Don't try to do everything at once. Here's how to get started:

Day 1: Pick Your Biggest Problem

Which of these sounds most like you?

- **"People can't find me online"** → Start with Section 1 (Local SEO Prompts)
- **"People visit my website but don't call"** → Start with Section 2 (Build Trust) or Section 3 (Get Contacted)
- **"I never know what to post on social media"** → Start with Section 4 (Social Media Prompts)
- **"I don't have enough reviews"** → Start with Section 5 (Review Prompts)

Day 2-3: Run 3 Prompts

Choose 3 prompts from your section. Copy them into ChatGPT, fill in your details, and review the outputs.

Don't aim for perfection. Aim for "good enough to use."

Day 4-5: Implement One Thing

Take your best output and actually use it:

Update your website

Post on social media

Send a review request

Create a Google Business Profile post

Day 6-7: Plan Next Week

Pick your next 3 prompts. Repeat the process.

Remember: One prompt used is worth more than ten prompts saved. Action beats planning.

Done-For-You Marketing Packages

If you prefer to do this yourself, the prompts in this guide are enough to get started. If you would rather have the content planned, written, organised and delivered for you each month, Podmore Media offers three packages for plumbing businesses.

→ Or email: hello@podmoremedia.com

→ Or call 020 4572 5600

Final Thoughts

You don't need to become a marketing expert to help more potential customers find your plumbing business.

You just need:

Clear messaging that explains what you do

Consistent visibility so people can find you

Simple systems to stay in touch with past customers

These 25 prompts give you a starting point. Use them. Adapt them. Make them your own.

And if you want the complete system done for you, Podmore Media is here to help.

Your next step: Choose the section that matches your biggest problem, run one prompt today, and use the result somewhere visible ? your website, Google Business Profile, social media, or customer follow-up system.

One-Page Action Checklist

Print this page and tick off each item as you complete it.

Week 1: Foundation

- ☐ Run Prompt 1: Create your 90-day content plan
- ☐ Run Prompt 6: Write 10 homepage headline options
- ☐ Run Prompt 11: Create 10 call-to-action options
- ☐ Choose your best headline and update your website
- ☐ Add your strongest CTA to your homepage

Week 2: Build Trust

- ☐ Run Prompt 7: Write your “Why Choose Us” section
- ☐ Run Prompt 4: Create 5 FAQ questions and answers
- ☐ Run Prompt 9: Draft your About Us page
- ☐ Add the “Why Choose Us” section to your website
- ☐ Add FAQs to your contact or service page

Week 3: Get Found Locally

- ☐ Run Prompt 2: Outline your main service page
- ☐ Run Prompt 5: Write one city page for your top area
- ☐ Run Prompt 3: Create 3 Google Business Profile posts
- ☐ Publish your service page
- ☐ Post all 3 updates to Google Business Profile

Week 4: Reviews & Reputation

- ☐ Run Prompt 21: Set up your review request system
- ☐ Run Prompt 22: Save review response templates
- ☐ Run Prompt 25: Draft your re-engagement email
- ☐ Send review requests to your last 10 customers
- ☐ Set up email templates in your system

Ongoing (Weekly)

- ☐ Post 2-3 times per week on social media (Prompts 16-20)
- ☐ Request reviews from every satisfied customer
- ☐ Respond to all reviews within 24 hours
- ☐ Check and update your Google Business Profile weekly

Monthly

- ☐ Review what's working and what's not
- ☐ Run 3 more prompts from the guide

- ☐ Update or add one new city page
 - ☐ Send one value-first email to past customers
 - ☐ Check your website analytics for improvements
-

Remember: Marketing isn't about doing everything perfectly. It's about doing the right things consistently.

Start with Week 1. Complete the checklist. Then move to Week 2.

Small actions, repeated weekly, compound into significant results.

Important Reminders

About Honest Claims

Throughout this guide, we've included example claims like specific response times or guarantees.

Only make claims you can deliver.

If you can't answer calls immediately, don't promise it. If your average response time is 2 hours, say that instead. Honest, slightly longer timescales beat broken promises every time.

Trust is built by doing what you say you'll do. Don't undermine it with exaggerated claims.

About City Pages

City pages only work if they're genuinely local and useful. Don't create thin content just to target keywords.

Before creating a city page, ask yourself:

Can I write something genuinely useful about this area?

Do I have real experience working there?

Can I mention specific local features, housing types, or common issues?

If the answer is no, skip that page. One excellent city page beats ten generic ones.

About Podmore Media

Podmore Media helps UK plumbing & other home service businesses use AI to create practical marketing systems. We turn your expertise into website copy, local SEO content, blog posts, and social media — so you can focus on running your business.
