How to use this pack

Customer reviews can help future customers feel more confident choosing your business. The best time to ask is shortly after a job has been completed successfully, while the experience is still fresh.

Before using the templates

- Replace all wording shown in square brackets.
- Add your direct Google review link.
- Make small changes so the wording sounds natural for your business.
- Only ask genuine customers you have worked for.
- Ask for honest feedback rather than specifically requesting a positive review.
- Do not pressure customers or offer incentives for favourable reviews.

How to find your Google review link

You need your direct Google review link before using the templates. Follow these steps:

1	Sign in — Sign in to the Google account that manages your Google Business Profile.
2	Find your profile — Search Google for your business name, or open your Business Profile.
3	Open reviews — Select Read reviews.
4	Get the link — Select Get more reviews.
5	Copy and save it — Select Copy link, then save it somewhere easy to access.

Where to use it: Paste the link into any template wherever you see [Google review link].

Optional extra: Google may also offer a QR code. This can be added to invoices, receipts or printed leave-behind cards.
